ABSTRACT OF FUR LAWS, 1936-37

Compiled by Frank G. Grimes, Administrative Assistant
Division of Public Relations

This abstract, showing the open seasons for 1936-37 for the trapping of fur animals, and the provisions of State laws regarding the possession, sale and shipment of pelts, is prepared and issued primarily as an aid to Federal officials in conducting investigations under, and enforcing the provisions of, the Lacey Act (35 Stat. 1137, as amended June 15, 1935) governing the interstate shipment of wild animals and parts thereof. The information thus compiled is in demand also by members of State game departments, the fur trade, and others.

The trapping of fur animals and the possession and sale thereof, or of parts thereof, is controlled entirely by State laws, but the shipment of such animals or their pelts in interstate commerce is subject to the scrutiny of Federal officials charged with the enforcement of the Lacey Act above referred to.

Though every effort has been made to have the following summaries substantially correct, the trapping seasons are subject to change by orders or regulations of State game authorities, and it is therefore well for trappers and others concerned to familiarize themselves with the provisions of State laws.

In stating the open seasons, the first and last days thereof are given.

Information as to licenses in the Canadian Provinces and Newfoundland is omitted, for the reason that these licenses are subject to changes by Order-in-Council. Those desiring this information may obtain it by communicating with the Game Commissioners or Departments at the Provincial capitals.
